

BUSINESS SOLUTIONS - CORPORATE EVENTS

Who better than **Futuroscope**
to offer you so many ideas
for creating your event?

Discover everything the Futuroscope site has to offer.

Futuroscope is a unique site devoted to companies that combines venues for meeting, accommodation and recreational sites based on an Image-focused amusement park.

Futuroscope Park offers stunning shows that use the most innovative projection techniques (360°, 3D and relief, giant screens, simulators, etc.). Spectators are immersed in a world of extreme sensations.

Our mission as your privileged contact is to advise you regarding your project.

Direct site access 80 minutes away from Paris

The Futuroscope site, near Poitiers, has its own TGV railway station (on the Paris/Bordeaux/Toulouse line). There are links to Brussels and the TGV station at Roissy-CDG Airport for international connections. Links to European destinations from the Poitiers-Biard Airport, including a direct fly between London and Poitiers.

It's all there!

On-site you have all the facilities required for your event to be a success: over 15,000 m² of meeting spaces, 7 theme-based hotels dedicated to business customers for seminars involving 10 to 150 people, and a Conference Centre able to adapt to your event, with 3 amphitheatres seating 150, 300 and 1,150 people (can be adjusted for 500 or 800 people) and featuring the latest communication and co-ordination equipment for videoconferences, video transmissions, etc.

Futuroscope opens its gates to you.

Nothing is too good for you!

Private screenings, cyber parties, theme-based dinners, a laser show on the Futuroscope lake, a private dance party at the Moonlight night-club... We have everything you need to bring your daytime event to life and keep it going right through the night!

Motivate your teams!

Futuroscope is geared up for team activities such as theme-based competitive events enabling different groups to become closely-knit whilst striving for common goals. Team spirit, a determination to win, efficiency, innovation, responsibility, and commitment - such values are shared by the staff of all high-performance companies. Futuroscope invites you to discover them through adventures where your staff can distinguish themselves.

Examples of themes:

- **"The company of the third millennium"**: A major discovery competition that takes participants through Futuroscope, based on the theme of company values.
- **"Scenario for the future"**: A quiz and a competitive event at the heart of Futuroscope's attractions, based on the theme of cinema.
- **"Page One Scoop"**: Building team spirit during a mad day during which your teams will play the role of special correspondents sent to Futuroscope.

CyberAvenue opens its doors to you for a private party during which your teams will compete against each other playing the most incredible virtual games: hurtle down black snow-surfing pistes, drive a Formula 1 racing car through the streets of Monaco, conduct a dangerous mission in a spaceship...

Quality catering

Diverse and varied catering, offering dining in a wide range of settings and styles, whatever option you choose for your business meals: a cocktail reception, buffet or a seated dinner.

A regional environment offering varied possibilities for sports and tourism

Canoeing, mountain biking, golf, archery, climbing, horse riding, etc.

The countryside offers a fine setting for sports activities. Even those who like high-speed thrills will get something out of it, with four-wheel drive rallies or Formula Renault driving on the track at Le Vigean.

In terms of tourism, the Marais Poitevin wetlands, the town of Cognac, the port of La Rochelle, and the "Vallée des Singes" monkey park offer just a few examples of places you can visit using the site as your base.

Residential seminars: A straightforward, clear-cut offer and a single contact

- A full, integrated offer for events for 10 to over 1,000 participants.
- Two to four-star Residential Seminar or Semi-Residential Seminar packages.
- The half-day and evening Futuroscope Passes were created specifically for seminars.
- Futuroscope can be booked in part or in whole for private functions so you can organise event-based parties, rallies, treasure hunts and other "team building" operations there.
A range of motivation products that can be offered in line with the client company and the theme of your event are available for your use.
- A cutting-edge technological environment thanks to the technology centre.
- The number to call for any project
+33 (0) 5 49 49 38 00
